## INVITATION EMAIL

## Email to all General Practices + GPs: Friday 13 October 2023

Note: If you have a specific General Practice or GP that you think would be interested, send them a personalised email + ensure each of your team members receive this email so they are informed about the training (your team members may like to forward onto their specific GP contacts) + if team members are visiting a practice, please print the PDF invite and leave in their lunch rooms.

**Subject line:** RARE GP VETERAN HEALTH TRAINING - 11 November - limited seats!

**Content:****VETERAN HEALTH - A Systematic Approach to Navigating DVA and Musculoskeletal Health Concerns**

This face-to-face educational event facilitated by Dr Kerry Summerscales a General Practitioner who recently transitioned out of the Defence Force skilled in defence and Veteran health conditions, will provide GPs the opportunity to reinforce and improve the management of healthcare for Defence Veterans.

GPs will be empowered to provide healthcare services in an area that is often identified as important but challenging due to the uncertainty of navigating defence health issues and associated health care planning.

This educational event aims to improve knowledge, skills and confidence in defence Veteran health consultations. Providing GPs with clarity around conducting post ADF health assessments and Medical Impairment Assessments and knowledge about the Coordinated Veteran Care (CVC) program, enrolment and implementation with a specific focus on musculoskeletal concerns.

**Learning Outcomes**

1. Distinguish common health and musculoskeletal conditions that impact Veterans health to improve early diagnosis and treatment.
2. Outline the process of a Post ADF Discharge Health Assessment and formulate a process to implement within your clinic.
3. Formulate a process to support Veterans to submit claims for assistance with the Department of Veterans Affairs to increase accessibility into health services.
4. Identify the appropriate Department of Veteran Affairs (DVA) forms to complete, to support Veterans in receiving healthcare assistance.
5. Develop a process to identify the qualifying features of the Co-ordinated Veterans Care Program and then implement a process to activate the Co-ordinated Veterans Care program.
6. Utilise relevant software and resources to appropriately bill for Veteran consultations.
7. Discuss key history and examination findings for common upper and lower limbs commonly seen in the Veteran population and identify an appropriate treatment plan.
8. Perform an appropriate musculoskeletal examination on a patient with musculoskeletal concerns in upper and lower limbs and identify an appropriate treatment plan.

**Date:** Saturday 11 November 2023

**Time:** 830am registration open - 9am start to 5pm finish

**Venue:** Oaks Darwin Elan Hotel, 31 Woods Street, Darwin

**Catering:** Morning tea, lunch and afternoon tea will be provided (if you have a dietary requirement please state this when you register)

**REGISTER HERE >> <https://events.humanitix.com/veteran-health-a-systematic-approach-to-navigating-dva-and-musculoskeletal-health-concerns>**

Please book as soon as possible as seats are limited!

Invitation flyer attached. You are welcome to forward this onto any GP you think would be interested and benefit from attending.

WEB BANNER GRAPHIC

The banner features a dark blue background with a white cross icon in the center. Above the cross, the text "HEALTH AFTER SERVICE" is written in a semi-circle. To the right of the cross, the main title "GP VETERAN HEALTH" is displayed in large, bold, white letters. Below the title, the subtitle "A Systematic Approach to Navigating DVA and Musculoskeletal Health Concerns" is written in a smaller white font. Further down, the event details "GP VETERAN HEALTH EDUCATION EVENT" and "11 NOVEMBER 2023 | 9AM TO 5PM | DARWIN" are listed, separated by horizontal lines. At the bottom of the banner, it says "With Dr Kerry Summerscales".
